The Election in Bourbon.

The election in Bourbon county Tuesday was the quietest ever held here. There was no opposition to the Democratic nominees for county offices with the exception in Millersburg precinct, Mr. Matt Current, Republican, running against 'Squire W. A. Thomason, Democrat, the latter winning by 53 majority.

The following were elected Justices of the Peace: Paris, L. J. Fretwell; Millersburg, E. P. Thomason; Little Rock, W. H. Squires; North Middle-town, J. J. Redmon; Clintonville, E. F. Stipp; Hutchison, O. B. Lloyd; Centerville, J. T. Barlow; Rudolph Mills, George K. Redmon.

The only Republican candidate running on the city ticket was Mr. Charlie Wilmoth, who was a candidate for Councilman in the second ward, he being elected by 66 majority. The two Democrats elected in that ward were J. S. Wilson and Robt. Link, the defeated nominee being Mr. T. F. Brannon. There was no opposition to any of the other city candidates. Mr. Wilmoth was elected of course by Democratic votes as the Democratic majority in the second ward is over 200 as shown on the face of the registration. Comment upon Mr. Wilmoth's success is not necessary, suffice to say, that the result was brought about by Democrats voting for a Republican instead of the regular Democratic nominee.

While we, of course, regret to see the election of a Republican, at the same time if we have got to have one among the city officers, no more popular one could have been selected, than Charlie Wilmoth. As we have stated in these columns before the worse thing you can say about Charlie is that he is a Republican.

The Kentucky Rooster Can Crow

A veritable Democratic groundswell were the elections held Tuesday throughout Kentucky. While there was no contest on for a State office the races for State Senators, Representatives, Circuit Judges and county offices let the attention of the voters.

Counties that had not gone Democratic for twenty years returned to their first love. When the Democrats throughout the State read that Christian, Muhlenburg, Hart, Greenup, Grayson and many others that have been casting their vote in favor of the Republicans for the past decade they can better enjoy victory that has come to their party.

The Legislature, both houses, will be largely Democratic. Returns early Wednesday morning indicated that in the Senate the Democrats had twenty-six, Republicans twelve. The House of Representatives will consist of sixty-nine Democrats, twenty-seven Republicans, and with four still to hear from.

In Fayette county, the Fusion ticket, headed by J. Watt Parker, defeated the regular Democratic ticket by a small plurality. "Billy" Klair was the only Democrat who saved his " bacon."

The Democrats made wonderful gains in the mountain counties. Bell county elected a Democratic County Attorney. In the Twenty-sixth judicial district, composed of Bell, Harlan and Whitley counties, Judge M. J. Moss, Republican, was defeated by W. T. Davis, an Independent for Circuit Judge.

Fusion Ticket Wins in Fayette.

The Fusion ticket, headed by Judge Watts Parker for Circuit Judge, wiped up with the Democrats of Fayette county by small majorities, only one Democrat pulling through, Thos. C. Bradley, Democratic candidate for County Assessor, being elected.

In Lexington, Butler Southgate, the Fusion candidate for Police Judge, defeated J. J. Riley by only three majority. "Billy" Klair, Democrat, defeated H. T. Duncan, the Fusion candidate for the Legislature, by 153 majority. It was a bitter fight all down the line.

Growers Ask for a Receiver.

In a suit filed Wednesday morning in the Fayette Circuit Court by Dr. W. G. McMillan, of Butler, and thirty-two planters, the Burley Tobacco Society, Clarence LeBus, G. A. Brooks, J. M. Rankin, the Clark County National Bank, the Citizen's National Bank and the People's State Bank of Winchester, are made joint defendants in the sum of \$300,000, the amount, it is alleged by the growers, that has been held back from the payments for the 1906 and 1907 crops of tobacco.

The plaintiffs in the suit declare that they pooled their tobacco in 1906 and 1907 and that it was agreed that, when a fixed price could be obtained for the product, it was to be sold, and the net proceeds were to be distributed among the growers in proportion to the amount of their crop.

The plaintiffs also say they were paid only part of the amounts due them from the sale of their tobacco, and that the society is paying expenses for canvassing and other items out of this amount which rightfully belongs to the growers in the 1906 and 1907 pools. A receiver is asked for the Society, who shall manage its affairs, and it is asked that an equitable accounting be established between the society and its members.

Attorneys Applegate and Clarke of Covington, filed the suit, and the motion for appointment of a receiver is set for hearing in the Fayette Circuit Court Monday, November 15.

See Life as a Whole.

We do not have to make a personal canvass to understand that there are altogether too many persons taking a narrow view of life. Instead of seeing things as a whole in their proper perspective, they search out the individual things, invariably the most unfavorable, and judge their whole lives by them. They see only one side, sometimes perhaps without the realization that there is another, but more often doing so by choice or compulsion by a nature that refuses to take note of anything good.

This is wholly wrong. In the first place, the world is not all bad. Men and women are pretty decent as a rule, notwithstanding the widespread suspicion we have of one another, and you have only to brush up against them and conduct yourself as a rational human being trying to get what good there is in living to realize that fact. It is one of the easiest things in the world to isolate yourself and isolation is the greatest breeder of distrust ever known. You shouldn't try to go it alone. You were never made to flock by yourself. So doing you get nothing and lose everything.

Viewing life from a single point makes you feel confined. You get the notion that there is nothing to it except just what you see, when the truth is that your little scene is altogether the smallest part of it. You could drop out of the world and not a soul would know or care that you were gone, so far as influence was concerned. The large minded person realizes that life is many sided and he takes care to see as many phases of it as he can. Then he takes them all together and judges by the whole, not by any one condition. He takes the good luck and the bad; the joy and the sorrow; the sunshine and the shadow; the good, the bad and the indifferent—and he mixes them all and finds an average which impresses him that earth is not so frightful a place as some paint it, and people are generally much better than the pessimist declares.

Refusal to see life as a whole is responsible for a great deal of woe and wickedness. It makes a perpetual cloud and a heaviness which drags and drags. If you choose you can make all your work a drudgery. If you decline to make friends you can shut yourself out in an atmosphere of distrust and discontent. If you refuse to look at success you can make life a failure—and you will. No matter what you may be doing at the present or how disagreeable it is, if you will only stop to think that there have been many others and more pleasant tasks and that there will be more of them in the future, you cannot judge life incorrectly. It is only comparison that we are happy—only by knowing grief that we know real joy. See the whole of life and judge it then according to the balanced sums of your joys and sorrows. That's the only way to obtain a true perspective—the only method of understanding whether to you life is worth living or not.

Well Stated.

The Tyler, Texas, News makes this clear cut statement: "If the people are not competent to construct a party platform demanding the official to enforce it, then the people are not qualified to elect a man to make laws. The News believes that the people are capable, hence the servant who obeys his instruction should be called down and out and replaced by one that will."

Is the South for "Protection."

The Dallas, Texas, Times-Herald prints a letter from James T. Stacey in which that gentleman, taking issue with Mr. Bryan's tariff views, says:

"It is not difficult to make a prediction as to the final outcome of this friendly rivalry between the North and the South for commercial supremacy. When the mills and factories of the South are able to consume the entire product of southern fields and mines, I predict that a complete reversal on the tariff will have taken place. The North and East will stand for the views of Watterson and Morrison, while the South will stand for those enunciated by Randall and Reed."

But is the South ready to turn "protection?"

Every one who tries it feels just that way. Relief is felt at once and its quick cure sur-

Want to Be Original.
Normal college, in New York, is the first woman's college to put upon the stage some play little known, "Dr. Faustus of Marlowe" being the one chosen. As a general thing, the college play is either a burlesque or a bad performance of a play that professionals would do well. The dramatic club thinks that having no one to imitate better work will be done.

**An Indigestion
Remedy Free**

Many people who are otherwise healthy suffer from indigestion, or dyspepsia. When you consider that the stomach and allied digestive organs are the most important organs of the body, it would seem that a disorder there is to be taken very seriously.

Dyspeptics cannot eat the things they like; food sour in the stomach; then chronic constipation begins, or, as is often the case, you have been constipated all along, and the stools are forced and irregular. But there is no use letting indigestion go until it becomes chronic and undermines your health. It is good advice to suggest to you that you go to your druggist and get a bottle of Dr. Caldwell's Syrup Pepsin, the wonderful cure for stomach, liver and bowel troubles. That is what C. Fowler, of Carson City, Mich., did and he is well today. Others who did the same and are cured are Ida A. Fortune, of Grand Junction, Tenn., E. P. Thompson, of Shenandoah, Ia., who actually considers that it saved his life. You can obtain a 50-cent or \$1 bottle of the druggist, and, taken according to directions, it will probably be all you need. It is a liquid, acts gently, never grips, and besides the laxative effect, contains exceptional tonic properties which tone the stomach, and that is what is especially needed in indigestion.

All sufferers from indigestion who have never used Dr. Caldwell's Syrup Pepsin can obtain a free test bottle by writing the doctor. It will be sent direct to your home without any charge. In this way thousands have proven to their own satisfaction Dr. Caldwell's Syrup Pepsin is the very remedy they needed to cure indigestion. When once you use this grand remedy you will throw violent cathartics, tablets, salts, etc., away.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 200 Caldwell bldg., Monticello, Ill.

THEATRICAL.

"GIRLS."

—The coming of Sam S. and Lee Shubert's production of Clyde Fitch's famous comedy, "Girls," will prove among the more important of the season's offerings at the Paris Grand. The date is tonight, Nov. 5.

"Girls" is a comedy dealing with the avowed intention of three girls to scorn the companionship of men in general, and in order to fully demonstrate their ability to be independent, hires a studio, which serves as their living room. Everything goes well until one night when they are about to retire a man hurriedly enters, and, despite the protests of the girls, announces his intention of remaining. He explains that his presence there is due to the fact that he was dining with a married woman living in the building and her husband unexpectedly returns making it necessary for him to make a hurried exit in order to save the woman's honor. The girls, not dressed to receive company, huddle together, and Pameal, the leader, is most vehement in her tirade against the intruder and all of his sex. Her two companions remain quiet, but bestow glances upon the visitor which show he has their sympathy, and the strength of the anti-man chief is weakening. From this time on, the interest never lags, and the numerous and humorous characters that go to make up the big cast appear in rapid succession and laughs flow incessantly. "Girls" from every point of view will please the most skeptical theatre goer.

DOCKSTADER'S MINSTRELS.

The 1910 pattern of burnt cork art has been staged and will be seen at the Paris Grand in the form of Lew Dockstader and his minstrels under the management of James H. Decker Friday, Nov. 12.

On the same fun list with Dockstader are registered Neil O'Brien, Al Johnson and Eddie Mazier, three comedians who are consummately believed to be the pick of fun rioters. Dockstader calls his present offering "The Possun Aero Club," features of which are spectacular numbers entitled "The Ruby and the Pearl" and "The Human Flag." What might be called a sensational event during the course of the entertainment is the actual operation of an airship which Dockstader at the steering gear, causes to fly over the heads of the audience.

Time at the North Pole.

At the North Pole time is nothing, and if one were residing at the North Pole it would be unnecessary to wind one's watch, says the London Chronicle. You are always at twelve o'clock and can't walk out of the hotel without walking South. All times of day meet at the pole, as the meeting place of all the meridians. A man sitting with the invisible mathematical point right under him would be in all twenty-four hours at once. Or a twenty-four hour watch placed on the pole could be made to point to the correct time in every part of the world. There used to be something of an approximation to this in the extreme north of Norway, where the degree of longitude squeezed in until recent days. Captains of Norwegian coasting schooners will tell you how inconvenient it was to change the time of Holland at Bergen and that of Crete at the North Cape while correct local time was maintained. General Norwegian time became indispensable.

Kills to Stop the Fiend.

The worst foe for twelve years of John Deye, of Gladwin, Mich., was a running ulcer. He paid doctors over \$400.00 without benefit. Then Bucklen's Arnica Salve killed the ulcer and cured him. Cures fever-sores, boils, felonies, eczema, salt rheum. Infalible for piles, burns, scalds, cuts, corns. 25c at Oberdorfer's.

Interesting Case.

An interesting case is soon to be decided by the Interstate Commerce Commission as to whether the charge for upper and lower berths in sleeping cars should be equal. It has long been the contention of many that the inconveniences of the upper berth should be offset by a lower charge than is made for the lower and more convenient berth. The case was taken to the commission by George F. Loftus, of St. Paul, Minn., who complained of the rates for "uppers" exacted by railroads operating between St. Paul, Duluth, Chicago and points in the East. Mr. Loftus in his complaints averred that a railroad which charged the same rates for upper berths as for lower berths was guilty of a discrimination within the meaning of the rate law.

The expectation is that the commission will hold that there is discrimination in charging the same rates for uppers as for lowers.

Illiteracy of Present-Day Youth.

It does not seem to us that the modern boys, rich with the spoils of Carnegie and Fowler libraries, are superior in intellect or English to their predecessors, who were restricted in their diet; and besides, under the sway of automobile and outdoor life, there is no time to read. The colleges swarm with agreeable and healthy youth destined to be prosperous, and charmingly illiterate.—New York Sun.

Wm. Parr, England's oldest man, married the third time at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at eighty. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." Lost Watch Recovered.

Bennett Thomas, son of M. and Mrs. Doug. Thomas, of this city, who was sleeping in the third story of the Old Court View Hotel, in Winchester, at the time of the fire which destroyed the building, was searching the ruins Saturday and found among the debris his gold watch which was left in his room that night.

The watch was bright and shiny and uninjured and seemed as if it had just been taken out of his pocket. The watch is a gold one and was valuable not only intrinsically but because it had belonged to his grandfather who had given it to him as a prize 1872.
Mr. W. H. Bush also found seven silver spoons which he lost in the fire. They were heirlooms and valuable for that reason. They were practically uninjured.

Against Pretenses.
Away with all those vain pretenses of making ourselves happy within ourselves, of feasting on our own thoughts, of being satisfied with the consciousness of well-doing, and of despising all assistance and all supplies from external objects. This is the voice of pride, not of nature.—Hume.

Swearing a Remedy.
Science runs to simple remedies these days. Since Metchnikoff discovered the fountain of perpetual youth in a bottle of buttermilk all who will may be centenarians. To rid a community of yellow fever it is only necessary to kill enough mosquitoes, and in nine cases out of ten probably tuberculosis can be cured by the cheap open-air treatment. The discovery of a London doctor that swearing is helpful to health is in line with the up-to-date medical methods.—New York World.

Reaching Life's Goal.
If you want to be somebody in this world you must assert your individuality and assert it in the right direction, so that it may lead to a goal of honor for yourself and be an example for others. Find out what you ought to do, say to yourself: "I must do it," then begin right away with "I will do it," and keep at it until it is done.

Japanese Days of Rest.
As a rule, no Sunday is observed among laborers in Japan, but the first and fifteenth of every month and every local and national holiday are their days of rest.

Weather Predictions.
When a hurricane is announced as coming in this direction conviction that there is no hurricane, or that it is belated, or that it is headed some other way, amounts to a certainty.

Mount McKinley Controversy

The Mount McKinley controversy
has become heated in two Montana
towns since the arrival of Dr. Cook,
the explorer. Saturday at Missoula,
Dr. Cook presented another affidavit
made by a friend of E. N. Barrill, the
guide who recently made the deposti-
tion that Dr. Cook did not reach the
summit of Mount McKinley. The affi-
davit of Barrill's alleged friend states
that he has heard Barrill state that he
and Dr. Cook had reached the top of
the mountain. Dr. Cook also made
another affidavit that he had scaled
the lofty peak and would take a party
next year to Alaska to climb the moun-
tain again and bring back the records
he had left on the summit.

STOCK, CROP AND FARM NOTES.

—Clarence Ashurst sold to H. Mar-
zolen twenty 160 pound hogs at \$6.50
per hundred.—Abnee & Mussinon bought of C.
Ashurst 15,000 pounds of tobacco at
10.75 straight.—Jas. M. Hutsell ex-Bourbon, has
purchased the H. R. Bright residence
in Mt. Sterling, for about \$5,500. He
will move to the property.—Mr. John Woodford, of near Paris,
presented Mr. George R. Bell with a
sweet potato of the Strausburg vari-
ety, grown in Mr. Woodford's gar-
den, that weighed 5 pounds.—Ed Case and B. W. Rash of North
Middletown sold their crop of 20,000
pounds of tobacco at 13 cents straight
to Thomas & Booth. Richard Green
sold about 25,000 pounds to same per-
sons at same price.—Millionaire J. B. Haggin has pur-
chased the Ford Farm in Fayette, con-
sisting of 155 6-10 acres, on the
Maysville and Lexington turnpike and
interurban railway for \$200 per acre
cash.—The Midway Clipper says that last
spring Mrs. Lowry sent to her brother,
J. L. McCabe, an Irish potato from
Denver, Col., which weighed three
pounds. Mrs. Lowry had told Mr. Mc-
Cabe of the enormous size to which
the tuber grows in that State and to
prove her statement sent him one. Mr.
McCabe planted the potato, being care-
ful with its cultivation. When he ex-
amined to see the result the other day
he found 160 potatoes on the vines
that came from the original one. They
weighed in all thirty-nine pounds and
are very fine and smooth. Mr. McCabe
will keep them to plant next year,
when he hopes to develop a new vi-
riety.

Get Rich Quick.

This country has had two campaigns
in which the money standard was the
issue, says the Elizabethtown News,
with the following timely comment.
The question then was whether it
would be gold or silver, but just now
the country is interested in another
phase of money standard. It is
whether the dollar should be put above
the man. The country is going wild
on commercialism. Men are seeking
to get rich fast. In the struggle that
is going on for fortune under the mis-
taken idea that it will bring happi-
ness everything else is sacrificed to
the craze. Thousands have dollars so
close to their eyes that they cannot
see anything beyond the rim. It is a
low standard, that debases rather than
elevates mankind. Truly it can be
said of the age that "the love of mon-
ey is the root of all evil." Men are
not seeking it for noble purpose but to
gratify selfish desires. They are not
enriching the world by their living,
but like the leech, they are blood suck-
ers impoverishing others in the desire
to have more than their neighbors. As
a result of this low standard religion,
morals, literature and respect for the
law are all suffering. The country is
prospering from a money standpoint
as it never prospered before, but it is
in consequence of this craze to get rich
it is suffering in many things which
are more value before the advance-
ment of humanity.

A Puzzling Case.

Twenty-two years ago Alex McFarland killed Thomas Patton in Magoffin county. Since then Reese Patton a son of the murdered man, has been searching for the murderer who escaped at the time. Last week a man living in Virginia known as Press Cotter, was arrested and taken to Salyersville as McFarland. Quite a number recognized him and the case seemed complete. This week it has been conclusively established that he has always been Cotter and is the wrong man. The officers are puzzled.

New Law Wanted.

Mayors of twenty Kentucky towns will petition the Legislature to pass a bill exempting cities from damage suits. Concerted action will be taken by the Mayors of many of the larger cities and towns in Kentucky. This was decided upon at a meeting held in Louisville Tuesday, Mayor Hume, of Frankfort, presiding. Under the laws of Kentucky neither the county or State can be sued, but the cities and towns do not enjoy exemption. The number of suits filed against municipalities every year run up into the thousands and hundreds of judgments awarded against cities where the parties suing were not entitled to damages. It is to remedy this evil that the Mayors have agreed on a bill to be presented to the next Legislature.

The Goebel Monument.

The unveiling of the monument to the late Governor William Goebel in the State cemetery at Frankfort, will take place on the tenth anniversary of his death, February 23, next. This was decided upon at a meeting of the Goebel Monument Commission there which was presided over by former United States Senator McCreary. The sum of \$15,500 was spent for the monument leaving a balance of \$1,234 in the fund, which will be kept in the bank on interest as a perpetual fund for the purpose of keeping the monument and lot in good shape.

Big Prices at the Lexington Tobacco Warehouse.

Lexington, Ky., October 28, 1909. The season's high water mark for big averages was reached at the new "Lexington" today. Old tobacco farmers and buyers said they had never seen a better sale anywhere at any time. In fact this great sale was regarded as a wonder by all who saw it. Among those who sold at the "Lexington" today were D. W. Peed, of Bourbon county, 8,980 lbs. for \$1,372.81, average \$15.29 per cwt.; Martin & Johnson, Scott county, 4,320 lbs. for \$681.57, average \$15.77 per cwt.; Hedges & Jones, Scott county, 2,315 lbs. for \$321.83, average \$13.64 per cwt.; Headley & Clayton, Fayette county, 3,310 lbs. for \$611.61, average \$18.48; Marcom & Davis, Woodford county, 5,085 lbs. for \$863.97, average \$13.45 per cwt. Average for the sale \$16.26. With the best lighted house and an old reliable auctioneer who has an interest in the business, and a thorough judge of tobacco, to follow the sale and make every basket bring the outside price, it is easy to see why this good sale was made at the "Lexington" today. In addition to J. N. Gibbons, the auctioneer and W. F. Land to follow the sales and bid on your tobacco, Messrs. B. E. Allen, L. M. Land, D. W. Peed are members of the Lexington Tobacco Warehouse Co., and all these with a competent force of assistants are always at the warehouse to give the very best possible services to their patrons. These people have adopted the motto: "Highest market prices and a square deal for everybody." You can't do better than to try the Lexington Warehouse with your tobacco.

Good Land Sale.

Suit for Divorce.

Mrs. Susan Sommerville Clarke has filed suit in the Bourbon Circuit Court for a divorce from her husband, Charles C. Clarke. Mr. and Mrs. Clarke formerly resided in Millersburg, the former being a son of the late Charley Clarke, one of the most prominent citizens of the county. They moved to Paris three years ago and in 1907 Mrs. Clarke accompanied by her two little sons, Masters Charles and John Clarke, following a separation from her husband, left for Washington, D. C., to reside with her aunt, Mrs. Jones, widow of the late United States Senator James K. Jones, of Arkansas.

Louisville Declared a White City

It was a glorious victory! By a majority of over 2,000 William O. Head, the Democratic nominee for Mayor, defeated James F. Grinstead, the Republican nominee, and Louisville was declared a white city. Mr. Head, standing at the head of the ticket, and bearing the brunt of the battle to that degree, leads the ticket in point of votes in Louisville, and has a plurality over all other opposing candidates. The entire Democratic ticket, city and county, falls into line behind Mr. Head, with a vote which constitutes a handsome vindication for the Democrats who were renominated and a fine appreciation for those other candidates who were for the first time on a Democratic ticket to be voted for.

Bloody Breathitt.

Breathitt county added to her list of crimes at Tuesday's election. At Spring Fork precinct Tilden Blanton killed Demosthenes Noble after the latter had shot him in the arm.

Conclave of Heptasophs.

The new conclave of Heptasophs will be organized soon and by investigating you will find a high class of citizenship on its charter list. If you have not already given your application to Mr. Jeff Elgin, you had better do so at once as it will save you some money to get in on the original charter list.

Star of Bethlehem.

The present would not be a regulation fall, with Thanks giving and Christmas looming up brightly in the near distance, without some allusion in some paper to the Star of Bethlehem. This star, we are told, comes on once every five hundred years. It is now visible in the Eastern horizon just at daybreak, and if you do not see it on its present visit, you'll miss it altogether. It may be distinguished by its peculiar brightness and largeness. Five hundred years from now the papers will be printing this same story, for then, of course the star will again be visible.

Latest Returns.

Returns received yesterday show that the Democratic landslide in Tuesday's elections is unprecedented in the history of Kentucky politics. The Republicans lost many counties and districts that were never known to fail them. The largest Democratic gains came from the mountain section of the State. The Republicans elected only one State Senator. They succeeded in defeating the Democratic nominee in the Campbell county district. The Democrats elected E. Bertram for the Senate in the Sixteenth district which has heretofore had a Republican majority of nearly 3,000. The next State Senate will stand twenty-six Democrats to twelve Republicans. The House of Representatives, according to incomplete returns, shows seventy-six Democrats and twenty-four Republicans were elected.

Election Returns Throughout Country.

Elections were held Tuesday in many States and cities throughout the country, with varying results, there being no national issue involved to bring about concerted party action.

In Massachusetts, the returns indicate that Gov. Eben S. Draper, Republican, has been elected over James B. Vane, Democrat, by a greatly reduced majority, estimated at 10,000. Gov. Draper's majority last year was 60,000. In Rhode Island, Gov. Pothier, was re-elected over Olney Arnold, Democrat by a substantial majority.

In Virginia the returns show that the Democratic ticket, headed by Judge Mann, for Governor, was elected by about the usual majority.

In New York City, which has been the storm center of the State, Tammany Hall scored a decisive triumph in the Mayoralty election, Judge Wm. J. Gaynor, the Democratic nominee, supported by Tammany, rolling up a plurality of upward of 75,000 over Otto T. Bannard, Republican, who in turn led William R. Hearst by approximately 25,000.

In Philadelphia another battleground of reform issues, Samuel P. Rotan, Republican was elected District Attorney over D. Clarence Gibboney, representing the Law and Order Society and the reform element.

The Pennsylvania State elections for Treasurer, Auditor General and Judge of the Supreme Court, resulted in the usual Republican majority.

In Maryland the Constitutional amendment disfranchising the negroes is still in doubt, the Baltimore vote being strongly against the amendment, while returns from the interior indicate increasing strength for the amendment.

Tom Johnson, the picturesque Mayor of Cleveland has been defeated by a decisive plurality by Herman Baher, Republican.

In Indianapolis Lewis Shank, Republican, is elected over Chas. A. Gauss, Democrat.

Decide Against Labor Leaders.

The District Court of Appeals at Washington affirmed the decision of the Supreme court of the District of Columbia which adjudged President Samuel Gompers, Secretary Frank Morrison and vice President Mitchell, of the American Federation of Labor, guilty of contempt in the Buck range and stove case. Chief Justice Shepard dissented. President Gompers says that the case will be taken to the United States Court of Appeals and "will be fought to the last ditch and then beyond that."

From Another State.

At Frankfort this week the administration of George Massie was given a verdict of eight thousand dollars against the L. & N. road for the killing of Massie who was an employee of the road. The killing occurred in Florida and the trial was held at Frankfort in accordance with a law of that State which allows it. The jury was instructed under the Florida law.
